

MILK MEN DETERMINED

Come to Boston to Complete Arrangements

REPORT THAT PRODUCERS

Are Strongly Organized and Ready to Withhold Milk After Saturday—Say That Contractors Alone Can Prevent the Strike.

Boston, April 28.—When the farmers' conference opened yesterday, with an attendance of over 30, Secretary William A. Hunter of the Milk Producers' association declared that all negotiations with the Boston contractors for a settlement of a summer price had been broken off. The producers demand a continuance of the winter price of 33½ cents a can and say that they can withhold 75 per cent of Boston's supply.

A motion was made by F. A. Rogers of Meredith, N. H., who produces 40 cans of milk daily. "I move that the delegates here assembled agree on behalf of the thousands of farmers in the prescribed districts," shouted Mr. Rogers, "to stand by our directors in whatever extreme they decide to go in this fight, which means so much to ourselves and our families."

It was carried with fervor. "There wasn't a dissenting voice, though as he had been clear by nearly every speaker it meant the precipitation of what all pronounced to be the most crucial situation that has ever developed between the milk producers and contractors in New England."

Yesterday's vote means that if the directors fail to bring the contractors to terms, they will declare a general strike to begin May 1, and in this will be backed by what is considered to be the strongest organization of farmers ever handed together.

LANGFORD A SHADE BETTER OF THE TWO

Came Out of Six Round Bout With Small Advantage, Though Draw Would Have Been Final Decision.

Philadelphia, Pa., April 28.—Sam Langford of Boston and Stanley Ketchel of Michigan met last night in the arena of the National Athletic club in a six round bout and at the end there was little to choose between the men. If anything, Langford had a slight advantage, but a draw would have been a fair decision.

After the first round both men fought viciously, Ketchel playing for the colored man's stomach, while the Boston fighter used a straight left varied occasionally with a right upper cut. It was one of those damaging blows, which caught Ketchel flush on the nose near the close of the third round and started the blood flowing in a stream. Langford thereafter played for the damaged organ, driving his long left straight to the face repeatedly. This attack seemed to madden Ketchel and he swung wildly many times, while Langford was cool at all times.

As the men rushed to a clinch just as the bell sounded for the close of the fourth round Ketchel drove a vicious left into Langford's stomach and the colored man's eyes closed and his mouth opened. He was visibly affected, but what might have proved a damaging blow on his career was avoided by the bell.

Ketchel pursued his nasal tactics of forcing the fighting. There was not a moment during the battle that he was not right on top of the Boston fighter, never allowing him to get set. This was the part of wisdom, for Langford easily outboxed Ketchel when the men came or twice sparred.

Suicide in Bank Vault.
New York, April 28.—In the vault of the Jefferson bank yesterday, George W. Howe, assistant receiving teller, took his own life. Rose used an implement ready at hand, slashing his throat and hands with an ink eraser. The suicide's friends are at a loss to account for his act, unless it was induced by the fact that his salary had been recently reduced.

Often The Kidneys Are Weakened by Over-Work.
Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys must, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmor's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmor & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Spring-Cleaning

The Human System Needs It.
Mrs. M. Morgan, 411 4th Ave., E., Brainerd, Minn., writes: "I take from one to two bottles of Hood's Sarsaparilla in the spring to purify the blood just as regularly as I do my house-cleaning, and go around light-footed and light-hearted. I believe it is the best blood purifier known."

VERMONTERS WON

FIRST HOME GAME

Defeated University of Maine Yesterday, 4 to 1, in a Fine Exhibition on the Part of the Home Team.

Burlington, April 28.—Errors at critical times lost yesterday's game by the majority of Maine to the university of Vermont in the latter's first home game, the score being 4 to 1. Both Haynes and McBride pitched good ball, but the Vermont men had perfect support, while the Maine boys were somewhat ragged in fielding.

The score—

Baseball Notes.
Pitcher Ed Reulbach of the Chicago Nationals, who has been seriously ill with diphtheria, reported to his club yesterday.

"Big Six" Mathewson was the boy to break the Phillies' record of straight victories, stopping them at seven straight. The Boston Red Sox got 21 hits yesterday off the Senators' pitchers.

Fred Lake of the Boston Nationals says there are four clubs in the American league that look like an even bet—Chicago, Boston, Detroit and Philadelphia. Pitchers will cut ice this year, he says, and the Athletics are well prepared for this. Connie Mack's club is a grand one to take, and in inside ball is perfect. Lake says Detroit is a good bet over Chicago, "something great," and the Boston Americans "great young fellows." He also figures that New York will cause lots of trouble.

Yesterday's College Scores.
At Burlington, Vermont 4, Maine 1.
At Princeton, Princeton 2, Trinity 0.
At West Point, West Point 3, Yale 0.
At Hanover, Dartmouth 6, Dartmouth 0.

COLEMAN AND BIG BILL KELIHER INDICTED

On Fifteen Counts Each by Jury—Two New Bills Were Returned by the Jury.

Boston, April 28.—Additional indictments in the grand jury investigation of the closed National City bank of Cambridge were returned yesterday against George W. Coleman, the bookkeeper, and William J. Keliher of Boston, through whom Coleman says he lost the greater of the \$250,000, trying to break a safe bank. Coleman was indicted in 10 counts for misapplying \$240,000 of the funds of the bank by means of checks made out to J. Thomas Reinhardt & company, of this city, and New York. Keliher, who was arrested on a court warrant Friday last and released Tuesday in \$25,000 bail, was indicted for aiding and abetting Coleman in the misapplication of the funds of the bank. Coleman's trial has been set for May 10, but no date has yet been assigned for the Keliher trial.

PAULHAN WINS \$50,000 PRIZE

Makes Flight From London to Manchester

BEATS HIS ENGLISH RIVAL

The English Aviator Was Asleep While the Frenchman Got Away—Paulhan Made But One Stop in the 180-mile Trip.

London, Eng., April 28.—The Frenchman, Louis Paulhan, whose efforts have frequently been crowned with victory, yesterday won the greatest race in the history of mankind, and \$50,000, when he flew into Manchester at 5:30 o'clock yesterday morning, having traveled by aeroplane from London, a distance of more than 180 miles, with only a single stop over night at Litchfield.

His unfortunate competitor in the contest, Graham White, the English aviator, for some unexpected reason, after making a successful new start at Roads, when he had made his first landing, descended at Poleworth and no advice having yet reached London of his having resumed his flight.

White was dumbly unfortunate in thus having victory snatched from his grasp, inasmuch as the wreck of his machine after his previous attempt delayed the renewal of the flight and yesterday, believing that Paulhan would not start until this morning, he went to sleep, thus allowing his opponent to gain one great advantage.

White a few days ago attempted the trip, but was compelled to descend at Fitchfield, after covering 115 miles. Paulhan then appeared on the scene, and the two aviators made hasty preparations for the flight, each striving to be first at the start. Paulhan stole a march on the Englishman, according from Hendon, a section of London, at 5:30 p. m., yesterday.

White, who was sleeping peacefully at the time, was apprised of this fact, and made a quick start from Park Royal, another part of London, at 6:30 p. m. Paulhan, flying high and fast, covered 117 miles before he landed, making that distance in two hours and fifty minutes. He descended at Litchfield at 8:10 p. m. and resuscitated at 4:09 a. m. to complete the journey.

White succeeded in reaching Roads, a distance of about 60 miles, descending on account of darkness at 7:55 p. m. He managed to overcome some of the handicaps by starting again on the long journey to Manchester at 3:30 a. m. He landed, however, at Poleworth, which is about 60 miles from Manchester.

FORMAL APPEAL

Filed by North Dakota Claimant in the Russell Case.

Cambridge, Mass., April 28.—There was another turn in the legal machinery of the famous Russell case, with the filing today of a formal appeal to the supreme court from the decision of the probate court in throwing out the claim of a North Dakota ranchman for a share in the property of the late Daniel Russell of Maine.

The petitioner, who had a six months' hearing in an effort to prove his identity, now asks the supreme court to say that he is Daniel Blake Russell and entitled to half of the estate. It is expected that there will be a spirited contest over the question whether the case shall be reopened before a jury or before a single judge. This question must be settled by one of the justices of the supreme court, sitting in this county.

While the North Dakota claimant is pushing his case for a final decision, the Russell family have taken into their homes a fruit picker from Fresno, Cal., and formally acknowledged him as the real Daniel Blake Russell.

GIRL A SUICIDE IN SCHOOL

Left a Note Which Said Her Heart Was Broken.

Alton, Ill., April 28.—Nina Anttila, 13 years old, committed suicide in school Tuesday in the presence of her teacher and thirty schoolmates by drinking carbolic acid. She left a pathetic note, in which she said that her heart was broken because her foster mother would not let her go to a school where she had a favorite doll and a wedding ring that had been left by her own mother.

OFF FOR MT. MCKINLEY

Mazama Club Expedition Leaves Seattle for Alaska.

Seattle, Wash., April 28.—The revenue cutter Tahoma sailed yesterday for Alaska, carrying the Portland Mazama expedition of four men, who will attempt the ascent of Mt. McKinley on the seaward side from the town of Fairbanks. The Mazama society is the famous mountain-climbing organization of the northwest.

Not in Milk Trust

The Original and Genuine

HORLICK'S MALTED MILK

The Food-drink for All Ages.

More healthful than Tea or Coffee. Agrees with the weakest digestion. Delicious, invigorating and nutritious. Rich milk, malted grain, powder form.

A quick lunch prepared in a minute. Take no substitute. Ask for HORLICK'S. Others are imitations.

SOMERVILLE SCHOOLS CLOSED.

Epidemic of Scarlet Fever Forces Action in Massachusetts City.

Somerville, Mass., April 28.—The public schools of this city were closed yesterday, because of an epidemic of scarlet fever. There are now about 70 cases of the disease in the city, 54 having developed since last Saturday. Physicians attribute the epidemic to the milk supply.

The school authorities thought that the closing of the schools might prevent further spread of the epidemic. The annual spring vacation begins Friday next and continues until May 6, by which time, it is expected, the schools may be safely reopened.

Some 12,000 children are affected by the school board's decision.

SAYS MISS REID WAS MURDERED.

Sister of American Says There Was No Cause for Suicide.

New York, April 28.—Mrs. Edward Wells, a widowed sister of Miss Estella Reid, whose body was found on the beach at Naples last week, was located in New York. Mrs. Wells said that her cousin, the Princess Haplogis, had called her that she was starting from Rome to take charge of the body. "My sister had no affair and was well able to take care of herself," said Mrs. Wells. "She owned considerable property in California, Texas and Wisconsin and was financially independent. She must have been murdered."

ITCH GONE INSTANTLY

PROOF AT 25 CENTS

What eczema sufferer would not spend 25 cents to cure that terrible, agonizing itch?

Since our repeated recommendation, failed to induce some eczema sufferers right in this town to try Dr. D. D. Prescription at \$1.00 a bottle, we arranged with the Dr. D. D. Laboratories of Chicago to offer a special trial for the present—at only 25 cents for this special bottle. This nominal price is made to assure a trial by every skin sufferer.

The remedy will convince you instantly, for it takes the itch away the very moment you start to wash the skin, and it cures—as we know.

Burt H. Wells, Barre, Vt.

CLAIRVOYANT

Psycho-Palmist and Medium

PROF. EMMERSON

Appreciating the fact that many would like to consult him, yet do not desire or cannot afford to have a full reading, therefore, he will, for the benefit of those, for one week only.

50¢ LOW FEE —OF— 50¢ FIFTY CENTS

Prof. Emerson's ancestors were all powerful and reliable mediums, and the old family name of Emerson is as well known and held as sacred to believe in spirit power as the name of Shakespeare is in the realm of literature. Therefore, this wonderful, wonderful man has received the rich and golden inheritance and combined knowledge which has been handed down from father to son for generations.

ARE YOU IN LOVE?

If so, do you find the one you have bestowed your affections and trust upon acting COOL and INDIFFERENT? Has a rival or obstacle of any kind crept between you and your future happiness, or has the demon, ruin, assailed the quietude of your happy home? If so, come at once to the gifted man and find help. He will guarantee to tell you the names of your rivals; also, will tell you how to win your heart's desire quickly and overcome your rivals or obstacles existing between you and your future happiness.

ARE YOU IN TROUBLE?

Do you find, with all your natural gifts and talents, that you are hampered, discouraged and unsuccessful? If so, come and be advised, find out the cause of your bad luck and how you can change your bad conditions to those of success, joy and happiness. Thousands live today to bless and give credit of their success and happiness to this wonderful man. He has helped others, why not you?

HE NEVER FAILS

to cause speedy and happy marriage with the one of your choice; removes the quarrels, locusts, locusts and troubles or buried treasure, gives you luck to win your biggest wish, overcomes bad luck and sorrow of all kinds, and it never takes him but a short time. In fact, he guarantees everything he claims—and you pay nothing until you have received value in full.

All Business Sacred and Confidential. Regular Fee, for Full Reading, \$1.

Parlors 30 Pearl St.

Shall We Rejoice

Glades comes with a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed and assisted by the pleasant laxative remedy Syrup of Figs and Elixir of Senna.

Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co.

KING'S QUEER STORY.

He Says That He Can Identify McKee Rocks Murderers.

Pittsburg, Pa., April 28.—Robert King, one of the men shot by the robbers of the Victor bank, McKee Rocks, and who says that he knows both of the murderers and was shot by them to prevent him from revealing their identity, is now locked up in a police station, while his story is being investigated.

King was picked up on the streets early yesterday morning, weak and emaciated, having been discharged from the Ohio hospital at McKee Rocks Tuesday night, after recovering from a wound in the groin.

He says one of the robbers is named Brown, and that he was approached a month ago with the plan to rob the bank. Immediately after the robbery, according to King, as Brown was fleeing, he saw King and shot at him, to prevent his revealing any knowledge of the plot.

King says if he were shown pictures he could pick the men who are implicated in the robbery. King says his home is in St. Louis.

FIRE IN GREAT BREWERY.

Entire Anheuser-Busch Plant Threatened with Destruction—Loss \$350,000.

St. Louis, Mo., April 28.—Fire of unknown origin caused a loss estimated at \$350,000 in the mammoth plant of the Anheuser-Busch brewing association early yesterday, and for a time threatened the entire establishment with destruction.

Five hundred thousand bottles of beer were destroyed, and millions of burning corks made such a dense smoke that the flames fought the flames in a black smudge. The streets about the plant flowed with beer for more than an hour. The bottling and storage house are now ruined, entailing a loss of \$200,000. Valuable paintings and furniture stored in the buildings by F. A. Faust, vice president of the company, were destroyed with a loss of \$50,000.

QUEBEC PULP POLICY STANDS.

Efforts of the United States to Secure Modification Prove Unsuccessful.

Washington, April 28.—Efforts of the United States to have modified in some way the saw pulpwood policy of the Canadian province of Quebec have been unsuccessful, United States Consul Foster, at Ottawa, has telegraphed to the state department that Premier Laurier of Canada Tuesday informed him the premier of Quebec province had declined to modify the new law.

This measure prohibits the export of timber and an iron mine, except in manufactured form, such as pulp and commercial lumber. Considerable loss to American paper mills will be caused by the new law, which goes into effect May 1, because they will have to buy manufactured pulp, instead of raw wood, as heretofore.

DISMISSES JURORS.

Judge in Pittsburg Grant Cases Dismisses with Their Services.

Pittsburg, Pa., April 28.—Judge Robert Frazer in criminal court yesterday dismissed a panel of 32 jurors, called to hear the testimony in the so-called graft trials now in progress. It is strongly rumored that Judge Frazer's action is the outcome of the reported activity of jury tamperers during the past two weeks.

Judge Frazer, however, refused to discharge the 12 men who have heard the testimony in the case of Coffin, former city councilman, charged with bribery, and who have been deliberating over a verdict for the past 18 hours. It is reported that the jury is hopelessly deadlocked.

ONE-THIRD OF CROP KILLED.

Kansas Board of Agriculture Gives Out Bulletin on Wheat Conditions.

Topeka, Kan., April 28.—F. D. Coburn, secretary of the Kansas board of agriculture, gave out his first bulletin of crop conditions in Kansas yesterday. He placed the condition of growing wheat at 70 per cent. One-third of the crop was killed. Mr. Coburn's figures show that there are only 4,500,000 acres left out of the 6,500,000 sown.

MINERS ENTOMBED.

Five Hundred Imprisoned in a Colliery in Wales.

London, April 28.—Five hundred miners were entombed yesterday afternoon at the Tyn-Y-Bedd colliery in Wales as the result of the breaking down of the cage machinery.

Considerable anxiety is felt for the safety of the men. The managers are endeavoring to make a connection with the miners through air shafts a mile distant.

FRAUDS INVOLVING MILLIONS.

Suit in Wyoming Federal Court Against Promoters of Stocks and Bonds.

Cheyenne, Wyo., April 28.—Alleged frauds amounting to several million dollars were disclosed through a suit in the United States court here against promoters who have been negotiating stocks and bonds for fifteen different corporations, the capital stock of which aggregates more than \$31,000,000.

COMET IS NOW IN PLAIN VIEW

Clearly Visible to the Naked Eye Just After 3 O'clock Yesterday Morning.

Cambridge, Mass., April 28.—Halley's comet has brightened rapidly since last Friday, and is now clearly visible to the naked eye shortly after 3 a. m.

The comet is displaying a fine brush-like tail of some three degrees in length, while the nucleus shines with a brightness of between 2.5 and 3 magnitude.

Prof. O. C. Wentworth at the Harvard observatory was able to make a number of interesting observations yesterday morning, despite the moonlight and the hastening dawn. His photometric measurements showed the nucleus to be 6.0 magnitude.

Halley's comet has not as yet attained as spectacular a stage as that of comet A, seen in the western sky in January, but the rapidity with which it has increased in brightness during the past five days gives promise of a splendid display in the course of a week, and astronomers have great hope that when it emerges from behind the sun in the most recent month it will be a most interesting celestial picture.

The comet is now moving through the constellation of Pices, and for a day or two will be a short distance east of the bright star in the southeastern corner of the great square of Pegasus.

A careful search of the eastern sky an hour and a half before sunrise will disclose the visitor, and a field glass will bring it much clearer to view.

FEEDING OF HORSES

(Continued from Thursday.)

Wheat and rye should be used sparingly as feed for horses. If fed alone, look out for founder or digestive ills. They should always be ground and fed mixed with other grains, but then only in small proportion.

Barley is useful as a mixture with other feeds, not so much as a regular feed, but to substitute a change, by being mixed with other grains. It is particularly valuable given as a warm mash, but always feed it in a sweet condition.

Corn and meal are not to be considered as a regular or exclusive feed for horses. Corn on the cob is frequently fed to young horses with lamps. Old corn should be soaked in clean, cold water for half a day, or it should be cracked and fed with oats. Oats and corn make a good feed for heavy, hard-worked horses. Care should be exercised in feeding corn to a horse not accustomed to it, small quantities only at first, or indigestion will follow.

Unseeded meal is often used with other feed, and where laxative condition is desired it is very desirable. A little in the water makes an excellent drink in inflamed conditions of digestive and urinary organs.

Potatoes, boiled, are a good root to feed occasionally. Beets are not much used for horses, while carrots make the best ration, especially during sickness; they act on the appetite and act in a wonderful manner on the bowels, kidneys and urinary organs.

Grass, of course, is nature's food for horses, but only when the horse is idle will grass sustain his strength. He must have grain when in harness, but there is a great deal to the horse when he can have access for a week or more to a good rest and feed of grass.

Referring to hay, timothy gives the best returns, and if cut when fed it will pay for the trouble. Musty or bad hay should never be used for feed. Clover hay is too rich, often causes indigestion and a continuous use of it tends to heaves.

In selecting the horse feed, it should be clean, sweet and wholesome—fed at regular hours, and one's experience and judgment fully exercised. As hay passes out of the stomach quicker than oats, it is obvious the hay should be fed first, let the oats be carried along and pass undisturbed. Feeding hay first prevents the habit of bolting the grain, giving water immediately after feeding, also acts disastrously to the good of the feed, for it too quickly washes the grain from the stomach; always water at least fifteen minutes before feeding, and never feed too soon after hard work.

Dr. A. C. Daniels

(Continued next Thursday.)

You Can Dress Well at Moderate Cost

and in this as well as in most other things we have always found it well to follow the crowd.

If you do this you are pretty sure to find your way to our store.

Men who want to be well dressed, and at the same time must consider the cost have found in

Morse - Made Clothes

all the good qualities to be desired at moderate prices.
